

HUNT THE WUMPUS

Press 'z' to start

----- GAME RULES -----

Welcome... to the game of your life...
You are an exorcist...who is seeking to rid the dungeons...of the Wumpus ghost.
The dungeons are made up of 30 rooms with up to 3 tunnels connecting to adjacent rooms...

Throughout the game you will encounter hazards that obstruct your path...twisting mazes will lead you astray, and bats will carry you into unknown chambers.
To traverse these dungeons, you must heed the warnings whispered by the ghosts of adventurers who came before you.
Remember, however, these are weak spirits, and will never know where the threat lies...only that it is near...

The fierce Wumpus ghost lies asleep, but awakens when it senses a new foe entering its domain.
It will chase you through countless rooms and you must outrun it. If it catches you, there is no escape. The only way to defeat it is to use a talisman near the entrance.
Using a talisman will drain you of your magical essence, so you must collect coins to replenish it.

In order to successfully defeat the Wumpus, it is essential that you understand how to traverse these dungeons:

CONTROLS:

movement: arrow keys (keyboard) & left joystick (Xbox)
select: z (keyboard) & a (Xbox)
cancel: x (keyboard) & b (Xbox)
use talisman: d (keyboard) & x (Xbox)
create talisman: f (keyboard) & y (Xbox)
sprint: shift (keyboard) & right trigger (Xbox)

Your GOAL is to kill the Wumpus in as few moves as possible...
And do remember, if you excel at this game, your name will join the list of renowned exorcists for all future exorcists to see.

We wish you good luck in your endeavors...many have failed but you may be one of the few who can rid the dungeons of the Wumpus ghost...
